

A **FREE** water education program for grades 3 to 5

Central Contra Costa Sanitary District (Central San) and Sustainable Contra Costa would like to offer your students a fun, interactive class on the wonders of water and the importance of pollution prevention.

What Students Do:

Through games, hands-on activities and colorful displays, you and your students will

- take a ride on the water cycle
- explore the path of water from our homes to the Bay
- uncover the mystery of cleaning wastewater
- learn how to protect this precious resource.

What Teachers Get:

- Teachers receive pre-and post-visit activities, background information and teaching resources.
- Students receive Water Wizards kits with a take-home assignment.

What Students Learn:

Students learn about California's natural resources, Bay Area water issues and protecting their local watershed. Water Wizards is easily integrated into your study of water and the environment.

To Register:

Please Contact:

(925) 979-5053 or
edprograms@centralsan.org

Reservations will be made on a first-come-first-served basis and will be confirmed by email.

Who's Eligible ?

The Water Wizards program is **FREE** to teachers within Central San's customer service area as shown in the map at right.

Wet your students' appetite for science!

About Central San

Since 1948, Central Contra Costa Sanitary District (Central San) has been collecting and cleaning the dirty water from your bathroom, kitchen, laundry room and garage. This classroom program is part of our increasing effort to educate the public on how to prevent water pollution and protect our environment.

Did you know...

It takes 1,800 gallons of water to produce the cotton in one pair of jeans!

Less than 1% of the water on earth is available for us to drink!

Central San's treatment plant cleans and safely returns more than 32 million gallons of wastewater to Suisun Bay each day!
