Our Mission

***TO PROTECT
PUBLIC HEALTH
AND THE
ENVIRONMENT***

Our Mission

We
protect
by

**collecting and
treating
wastewater**

Our Mission

We
conserve
by

producing
high quality
recycled
water for
public use

Our Mission

We
prevent
by

**Controlling sources
of pollution through
collecting,
recycling, and
disposing of
household
hazardous waste**

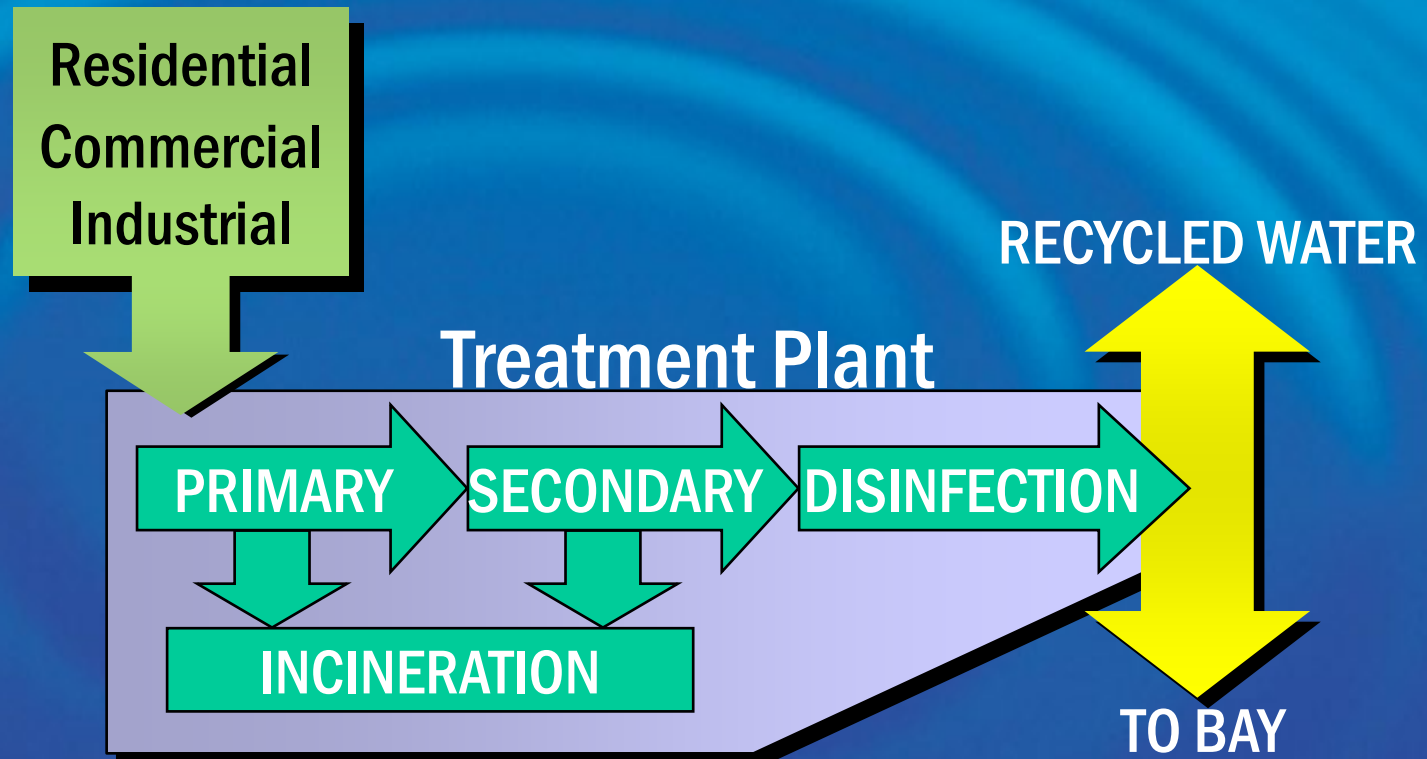

Follow the Flow

COLLECTION SYSTEM

Programs that Prevent

We do more than collect and clean wastewater. Central San has other programs that protect the environment through pollution prevention:

- Household Hazardous Waste (HHW) Facility
- Educational Programs
- Environmental Compliance Program

HHW Collection Facility

safe and proper disposal

Environmental Compliance Program

Sanitary Sewer & Storm Water

- Regulations
- Permitting
- Inspections
- Sampling

Central San Environmental Compliance Program

Why have an Environmental Compliance Program?

- Federal Clean Water Act requires it
- Regional Water Quality Control Board requires Pollution Prevention programs of Publicly Owned Treatment Works (POTWs)
- Protects Central San's operations
- Protects San Francisco Bay

Central San Environmental Compliance Program
